WILSON AFTER LIND MEETING WAITS TORREON

Washington, March 23.—Although full reports of the conference at Vera Cruz between John Lind and Senor Portillo Rojas, minister of foreign affairs in the Huerta cabinet, have been received here, the disposition of the American government is to make no change in its Mexican policy to express itself on any of the new proposals reported to have been made until after the battle of Torreon is fought.

This became known tonight authoritatively, though officials declined to say what new proposals had been made by the Mexican cabinet officer.

Reports that a more friendly feeling prevails between the Washington government and those officials of the Huerta administration seeking a peaceful settlement of the difficulty are born out by dispatches received here by Charge Algara of the Mexican embassy, who today said President Wilson's attitude in welcoming a resumption of peace negotiations had made a favorable impression

in the Mexican capital.

One of the purposes of the visit of Senor Portillo y Rojas to Mr. Lind it is said, was to acquaint the latter with his personality.

President Wilson recently spoke in complimentary terms of the Mexican cabinet officer. Charge Algara has pointed out that while Senor Portillo is a member of the clerical party he is liberal in his views. Constitutionalist here have said, however that while they thought highly of Senor Portillo personally, his affiliations with the clerical party would prevent him being accepted by General Carranza as provisional successor to Huerta.

Administration officials here do not think much can be accomplished until the battle of Torreon is over. The prestige and strength of one or the other of the Mexican factions admittedly will suffer as a result of the contest, and the moral effect throughout Mexico, it is believed here, will be the tremendous.

The presence in Vera Cruz of Charge O'Shaughnessy merely is a result of his ill health, according to state department announcements. Secretary Bryan denied a published report that O'Shaughnessy wanted to resign. He said he had heard nothing of it, and didn't believe it.

The secretary made no comment

on Senor Portillo's suggestion that Mr. Lind take a trip through territory controlled by the Mexican federalists.

King Makes History by Dominating Situation

For the first time in years an English King has taken an actual and dictatorial hand in the affairs of governing his kingdom.

King George, awed by the desperate turn affairs in Ulster have taken, yesterday called in the officials in charge, and conferences were held all day at Buckingham palace.

An effort was made to quiet Ulster by announcing that the movement of troops into that county had ended.

All the turbulent territory, however, spent the day in celebrating the fact that the stand taken by army officers, that of refusing to accept service in Ulster at the cost of their commissions, had virtually forced the statement.—Ft. Worth Record.

BRIDES' SCHOOL TO BE STARED IN CINCINNATI

Cincinnati, Ohio, March, 23.—There will be no more "green-housekeeping brides" in Cincinnati, at least this is the assertion of Superintendent of Schools Condon, who announced today that a school for prospective brides will be started as soon as the finances of his department will permit. Several bachelor members of the Board of Education are enthusiastic in the movement. The assistant school superintendent, who is a bachelor, said tonight: "Each pupil will receive a six months' training in the art of being a genuine housewife. After taking the course the bride-to-be will be qualified to cater for the family should the cook walk out, locate a leak in the water pipes, mend a broken doorknob or put up a shelf, scrub, wash, iron market, give first aid to any injured member of the family, darn stockings, lay a table in the most approved fashion and, best of all aid their husbands by preventing that frightful waste in the American household."
